DETAILED ACTION

Claims 1-13 and 15-17 are currently pending in the instant application.

I. Response to Amendments and Arguments

Applicant's arguments, filed March 29, 2007 with respect to the rejection(s) of claim(s) 1, 12, 13 and 15-17 under 35 U.S.C. § 103 have been fully considered and are persuasive. Therefore, the rejection as well as the finality of the rejection has been withdrawn. However, upon further consideration, the Examiner has reopened prosecution of this application and a new ground(s) of rejection is made in view of prior art found on the elected invention and will be discussed further in detail below.

II. Rejections

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 15-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Saakyan, et al.. The instant elected invention claims a product

with the formula

wherein R¹ is thienyl which is unsubstituted or

mono- or polysubstituted by R^3 and/or R^4 ; R^2 is alkyl having 1-20 C atoms; R^3 and R^4 each independently is H, alkyl or alkoxy having 1-20 C atoms, aryl, aryloxy or $COOR^2$, F, Cl, Br, OH, CN, NO_2 , $N(R^2)_2$ or $NHCOR^2$.

The *Saakyan, et al.* reference teaches

. This

species of compound anticipates the genus compound of the instant invention, wherein the genus structure and its definitions are stated above.

III. Objections

Dependent Claim Objections

Dependent Claims 12 and 13 are also objected to as being dependent upon a rejected based claim. To overcome this objection, Applicant should rewrite said claims in an independent form and include the limitations of the base claim and any intervening claim.
